

# A GOOD WORKING ENVIRONMENT >> LESS DAMAGE TO MATERIALS >> SATISFIED EMPLOYEES >> STRONG BACKS >> FASTER INSTALLATION...

Winlet 575 - a revolutionary new way of installing windows. Using the Winlet 575 window robot, you can quickly and dramatically improve health and safety at work. Window elements weighing up to 575 kg can be lifted, transported and installed easily, without straining the back. The result will show on your bottom line, because your employers will be happier and more efficient, damage will be reduced and installation will be speeded up. Finally - a window robot which meets H&S requirements and improves efficiency.

# LIFTS ALL AIR PROOF ITEMS

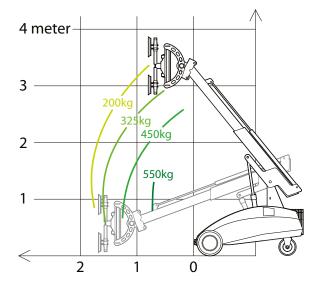

Winlet 575 can easily be adapted to lift a wide range of materials by changing the suction cups. This makes Winlet 575 ideal when handling:

GRANITE
CONCRETE
PLASTERBORDS
STEEL PLATES

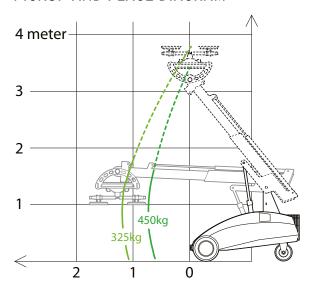

WOODEN PLATES
TILES

FIRE DOORS

# MAXIMUM CAPACITY - MINIMUM SPACE

Winlet 575 combines superior lifting capacity and reach with a unique and compact design. Only with Winlet 575, you can handle heavy elements up to 575 kg bringing it through rough terrain and narrow doorways. Due to the compact design, confined spaces such as elevators and balconies are no problem for Winlet 575. The low weight of Winlet 575 makes it possible to use it where heavier construction equipment cannot be used due to surface pressure.
